This pricelist doesn't constitute an offer according to Civil Code rules and other legal regulations as well as does not present technical specifications of products and current stock levels.

Methodology

TOP	10 year or longer warranty after selection of a technology appropriate for the specific corrosion environment, possibility of individual colour selection, highest quality, retail orders possible, highest performance, outstanding post-sale services
FIT	High quality, 5 -10 years of warranty, retail orders possible, limited colour selection, post-sale services
BASIC	2 – 5 years of warranty, no possibility of individual colour selection, baseline performance parameters, full-pallet orders only, basic post-sale services

TOP FIT BASIC

General information

In standard working conditions, PVC materials used by Betafence Sp. z o.o. for the coating of fences and fence-related elements do not pose a direct threat to a person's life or health. The PVC materials used in the Betafence production facilities do not contain any harmful phthalates (DOP) in plasticizers or any harmful lead, chrome or cadmium compounds, as per the applicable EU regulation No. 67/548/EEC.

The Quality Management System of Betafence Sp. z o.o. has been attested by BVQI with PN-EN-ISO 9001: 2009 certificate. All Betafence factories in Europe are also certified with EN-ISO 9001: 2008.

General terms of guarantee

The guarantee is applicable under following conditions:

- Fencing must comprise of Betafence original products exclusively.
- Any alleged defect detected within the guarantee period must be expressly claimed in writing within 30 days of its detection. In case of complaint, the invoice will be requested by the seller.
- This guarantee covers all production defects of this Betafence product as well as its state of preservation, for temperatures between minus 30°C and plus 50°C provided that the product is not erected at temperatures below 0°C (PVC coated products) or below minus 10°C (other products).

Betafence engages to replace the defective Betafence products free of charge, materials only, excluding coverage of possible direct and indirect costs, losses and consequential damages.

If necessary, an independent inspection authority of repute may be engaged to establish the true nature of your claim. Any expenses relating to such inspection will be for the account of Betafence, if the investigation proves the defect of the Betafence product is caused by Betafence.

General exceptions

- This guarantee cannot be applied if the complaint-filing procedure has not been fulfilled or if the complaint has been filed after the guarantee period.
- Products, which are not supplied by Betafence, including any possible detrimental impact of these on Betafence products, are not covered by this guarantee.
- Damage caused by installation not in compliance with the instructions of Betafence is not covered.
- The guarantee is not applicable in case of damage caused during storage, transformation, handling, installing, or after erecting the product, or when the product is used for purposes for which it is not intended.
- Corrosion due to abnormal levels of aggressive chemicals.
- A limited number of red rust spots with a total surface of max 0,5%. Any occasional white rust.
- Damage due to fire, war or natural disasters.
- The guarantee does not cover the edges of cut-offs of vertical and horizontal wires or profiles

DEFINITION OF GUARANTEE for galvanised as well as galvanised and poliester or PVC-granulate coated products

Betafence Sp. z o.o. (hereafter “Betafence”) hereby guarantees the lifetime of the products for a period of ten (10) years years for galvanised and organically-coated products and 2 (two) years for galvanised products, starting from the date of invoice issued by the seller. The guarantee applies only to professional fencing systems, is issued for particular order and is attested by a “guarantee certificate” with a reference number provided. The guarantee is limited to five (5) years for marine or industrial atmospheric environments (Environments near to the coast up to 500 m and/or close to industrial areas with heavy contamination by corrosive agents).

Rules of degressive guarantee:

Guarantee coverage		
Type of guarantee	Cost:	
10 year guarantee	years 1 and 2	replace 100%
	years 3 and 4	replace 90%
	years 5 and 6	replace 80%
	years 7 and 8	replace 60%
	years 9 and 10	replace 50%
5 years guarantee	years 1 and 2	replace 100%
	year 3	replace 80%
	year 4	replace 60%
	year 5	replace 50%

DEFINITION OF GUARANTEE for PVC-powder coated products

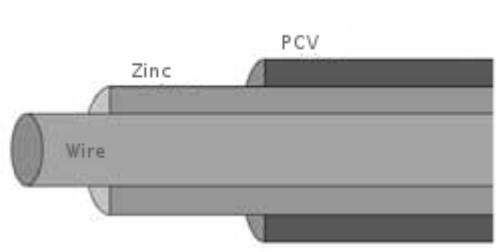

1. For several welded meshes (Fortinet Medium, Fortinet Super, Pantanet Protect and Pantanet Family) and panels (Bekafor Classic) Betafence Sp. z o.o. hereby guarantees the quality of this Betafence product for a period of 20 (twenty) years commencing date of invoice issued by the seller, limited to 10 (ten) years for marine or industrial atmospheric environments (environments with contamination by corrosive agents).
2. For several welded meshes (Pantanet Essential and Pantanet Light) and panels (Bekafor Essential) Betafence Sp. z o.o. hereby guarantees the quality of this Betafence product for a period of 10 (ten) years commencing date of invoice issued by the seller, limited to 2 (two) years for marine or industrial atmospheric environments (environments with contamination by corrosive agents).
3. Any alleged defect detected within the guarantee period for both types of guarantee (20 and 10 years) must be expressly claimed in writing within 30 days of its detection. In case of complaint, the invoice will be requested by the seller.

Terms of shipment from the warehouse in Kotlarnia

1. Prices specified in the price list include the costs of transportation to the customer. Orders of a net value below PLN 5,000 are executed with an additional PLN 300 net charge (administrative and commercial fee). The fee also applies when the customer collects the order.
2. Orders are processed from the minimum value of 1500 €.
3. Quantitative and qualitative complaints, except for hidden defects, are accepted by 48 hours of the product delivery.
4. All products in pricelist have a minimum ordering quantity specified for executing the order. The quantity is presented in the “minimum order quantity” column.

Some products have a minimum order quantity in order to reduce packaging costs. Such products have an additional column listed in pricelist: "minimum order quantity". Orders for such products will be automatically rounded off to the primary packaging units.

Legend	
Stock product	The product is marked in pricelist with a bold font. Minimum order quantity means that the product may be ordered in the specified quantity or its multiplication and that the product is readily available.
Standard product on individual order	The product is not kept on stock. It’s marked with a regular font. Minimum order quantity means that the product may be ordered in the specified quantity or higher (except for products that can only be ordered in full packages. Realization of the order for 4 weeks. More information on GTC.
Non-standard product on individual order	Product not listed in pricelist and calculated individually upon customer’s request. Order fulfillment is determined individually.
Confirmation of orders	We only confirm orders for non-stock products. They are sent to customers in writing within 48 hours from the date of receiving the order.

Disclaimer:
Orders for stock products will be cancelled if the goods are not collected/delivered by customer within 6 weeks from the time they appeared in warehouse.
Orders for quantities lower than the minimum quantities indicated will not be executed.

See GTC to find detailed information on our commercial offer.

Egidia SC industrial sliding gates motorized

Products available from Poland (Kotlarnia).

Underbeam 120x100 mm
Single guiding post 120x80 mm
Double end post 80x80 mm
Geometry regulation system/tension system in whole range
Back supporting roll for gates 6,7,8 and 9 m
Motorisation FAAC 746 for intensive use
Wireless photocells
Resistive security stripes
Light 230V
Remote control with alternating code - 1 pc

Infill	20x20 mm profiles or Nylofor 3D panel
Anticorrosion coating	hot-dip galvanised or galvanised + poliester coated

Egidia SC industrial sliding gates motorized - infill 20x20 mm profiles

Guarantee type: 2 years

Casanet® meshes

Products available from Belgium (Zwevegem).
Welded mesh with square meshes.
Used for cages and pens for small house animals, as protection of vegetables and fruits and support for climbing plants.

Anticorrosion coating	galvanised + PVC coated or Trigalv galvanised
Wire thickness	from 0.55 to 2.45 mm
Mesh	from 6.35 x 6.35 mm to 76.2 x 12.7 mm

Casanet® mesh plastic

Colors: Green RAL 6073 — **SPG** 374B

Gabions and matracesses

Products available from Poland (Kotlarnia).
Welded baskets and matrasses with square meshes.
Used for detaining walls, protection of slopes, reinforcement of sea and river banks as well as self-standing walls.

Product equipped with technical approval ETA-16/0290.
Available on individual order.

Gabion baskets are pre-assembled. The baskets include:
- connecting spirals
- distance holders
- hooks

Welded gabion baskets made from ZnAl coated wire min. 350g/m2
